DETAILED ACTION

1. Claims 1-38 are pending and presented for examination.
2. Applicant's submission of references on form PTO-1449, filed on September 24, 2002, has been considered. A signed copy of the form is attached.
3. Claims 1-38 are allowed.

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 4, after "stations" insert ".".

5. The following is an examiner's statement of reasons for allowance:

The prior arts of record fail to teach or fairly suggest, a display receiving data from the controller regarding the processing of a plurality of semiconductor wafers in the processing tool, the display having a graph area to display a graphical representation of the processing of the semiconductor wafers. The graphical representation further comprising a plurality of line segments in a first direction, wherein the length of the line segments indicates the time the semiconductor wafer spends in one of the plurality of process stations. Along with a plurality of line segments in a second direction, wherein the line segments represent the transfer of one or more semiconductor wafers from one of the plurality of process stations to another one of the process stations.

The limitations of independent claims 1, 10, 16, 21, 26, and 30, in combination with the other elements and features of the instant invention are not taught, disclosed, or fairly suggested by the prior arts record. Thereby, rendering the instant claims allowable over the prior arts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
